

New Spinning Machines: August 29, 2006

Charlotte, NC... Saurer Inc. is pleased to announce a recent machinery order with Tuscarora Yams, Inc. of Mount Pleasant, NC. This purchase by Tuscarora for their Oakboro, NC Plant includes the Zinser Model 351 ring spinning machines and the Autoconer Model 338V automatic winding machines. The new Zinser Model 351 ring spinner features the ServoDraft for changing yarn count and twist, the OptiSuction energy-optimized suction system and the simple to use EasySpin computer control system. The Model 351 also includes the optional Zinser FancyDraft effect yarn system. The Autoconer Model 338V automatic winder features the Autotense FX tension control system for optimum package quality, the suction system with Automatic Vacuum Control (AVC) and the Informator computer control system equipped with a Touch Screen and a PC card drive.

At Saurer Inc., we appreciate our relationship with Tuscarora Yams, Inc. and their selection of our machinery for their continued modernization program at their Oakboro Plant. We look forward to our ongoing partnership with this world class specialty yam spinner.
