

Supima Cotton: 9/18/06

Tuscarora Yarns, Inc. is proud to announce its latest innovation of 100% cotton Supima heather and mélange Yarns. Tuscarora is offering 100% cotton Supima Ring-Spun heather and mélange Yarns in a wide variety of colors in count ranges from 4/1 - 40/1's Ne. The Supima products are an exciting addition to the existing range of Open-End, Ring-Spun and our patented 5-Star Ring-Spun heather and mélange product lines. Tuscarora is the largest spinner in the United States and CAFTA/NAFTA regions of custom heather and mélange Yarns and the only licensed spinner of Supima heather and mélange yarns in these regions.

Commented Ron Comer, Director of Marketing & Latin America Sales, "Due to ever changing markets, we see the need for new and innovative products. Supima cotton products are growing in popularity, especially with the current trends of more luxurious products. We have built our company around catering to our customers' needs. With our current facilities, we have the flexibility and capability to adapt to these changes and demands. It is this type of service that has allowed Tuscarora to be successful in what we do. Our forward thinking and innovative steps are allowing us to expand our production facilities". Tuscarora recently completed its first phase of expanding its Ring-Spun production with the addition of new spinning equipment. It will shortly begin the second phase of expansion, with the addition of new Zinser ring frames utilizing the latest technology in innovative spinning.

Added Joe McLester, VP Sales Administration, "Our customers appreciate our quality and service. We are able to reproduce custom color matches within a 24-hour period in knitted fabric form. Our color lab has an extensive library of color matches from all over the world. We are excited about our latest innovation and invite you to contact us to learn more about our products".
